

## **Bath Spa Students' Union Student Leader Election Results 2022**

### **How This Works**

We use Single Transferable Vote (STV), a representation system in which a person's vote can be transferred to a second or third choice (according to their stated preference) if their first choice is eliminated during the vote count. More information is available [here](#) or you can watch [this video](#) from De Montfort University Students' Union.

In every election RON is also a candidate. RON stands for Re-Open Nominations and is for students who feel the remaining candidates are not suitable for the position and would like nominations for that post to be re-opened at a later date.

A spoilt ballot, in general terms, is a vote that cannot be counted towards the vote count. In the context of the Student Leader Elections, students can choose to spoil their ballot should they wish to exercise their democratic right to vote while not contributing to the election outcome
